PERSONAL PROFILE

I'm a dedicated, self-driven, dependable, responsible, and hardworking person, who does well in both group and solo environments. I have excellent interpersonal skills, am adaptable, and am open to learning new things. I am reliable and open to taking on new tasks in a range of professional fields.

SUMMARY OF QUALIFICATIONS

- Around 1 year of experience in the software field.
- Proficient in PC hardware management, network design, troubleshooting, and operating systems.
- Good at recognizing issues and helping a wide range of clients.
- A versatile, quick learner, and goal-oriented personality
- Excellent communication skills, both written and verbal; able to explain technical concepts to users with and without a technical background.

EDUCATION

COMPUTER SYSTEMS TECHNOLOGY - NETWORKING

Centennial College, Toronto, Ontario, Canada.

January 2023 – April 2024

Relevant Courses Included:

- | | |
|-----------------------|--------------------------------------|
| • Routing & switching | • Telecommunications |
| • Unix/Linux | • Network Security |
| • Network Services | • Virtualization and Cloud computing |
| • Network Management | • Internetwork Troubleshooting |
| • Wireless Technology | • Network Design and Test |

Key Achievements:

- Accomplished the successful delivery of a comprehensive capstone project, demonstrating adeptness in network design and implementation. Expertly integrated DHCP, DNS, FTP, VOIP, and IoT technologies to ensure seamless communication and service delivery.

• **Bachelor of Computer Engineering**
Gujarat Technological University, Gujarat, India.

May 2018 – June 2022

Relevant Courses Included:

- INFORMATION AND NETWORK SECURITY
- Mobile Application Development
- Software Engineering
- Internet of Things and Its Application
- Advanced Java Programming
- Computer networking

Key Achievements:

- Deployed a prototype project with IoT to monitor the temperature, humidity, and soil moisture levels. Also, it allows the user to control the lights and water pump using IOT.
- Graduated with a GPA total of 7.89.

WORK HISTORY

Jr. Software Developer (Intern)

TestGrid Lab Inc., Surat, Gujarat, India

June 2021 – March 2022

- Learning the Company's Product
- Checking social media content drafts.
- Analyzing the Company's Product for future growth.
- Assisting in suggesting new features for easy user accessibility.

Jr. Software Developer

TestGrid Lab Inc., Surat, Gujarat, India

April 2022 – October 2022

- Creating Testing samples for the company's proposal to the client.
- Assisting the client with FAQs on the company's product.
- Developing prototypes for new features.

Awards/Accomplishments:

- Developed an algorithm prototype with my team to detect the components of apps while it is uploaded to companies' products and collect their data using machine learning for testing.

TECHNICAL SKILLS SUMMARY

Networking: TCP/IP, Internet, Intranet, Routing, Network Design.

Programming: Java, C, C++, Python.

Operating system: Unix/Linux, Windows Server 2000 server, Windows 10.

Application: Microsoft 365, Wireshark, Cisco Packet Tracer.

Additional Skills: Troubleshooting, Time Management, Teamwork, Communication.
